

tiny radio keychain

By Juha (I8, USA)

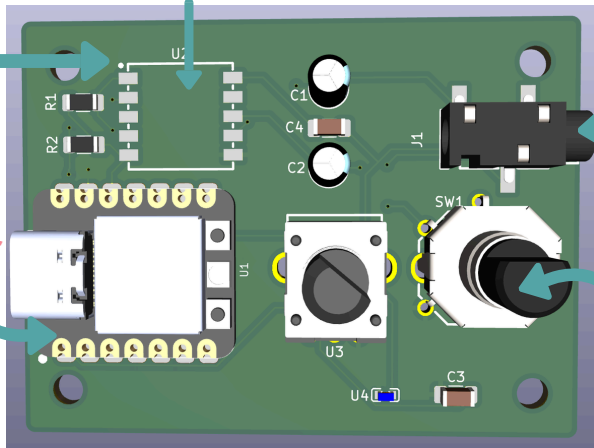

58 x 42.4mm
(about the size of
two postage
stamps!)

RDA5807 radio chip

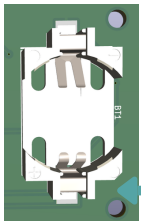

your wired
earphones are the
antenna

XIAO RP2040
microcontroller

knobs for
volume and
frequency - like
a traditional
radio

front side

back side

runs on a single
coin cell battery!

An FM radio in compact
keychain form. Built for
easy assembly and
(re)programming!
